EDUCATION

BSc in Computer Science

United Kingdom

Expected 2025

- Relevant Coursework: Software Engineering, Object-Oriented Programming, Data Structures & Algorithms, Web Development, Cloud Computing, Database Management Systems, Agile Development.
- Capstone project focused on designing a CBT-inspired web application integrating AI-driven emotion recognition and cloud deployment.

Gujarat Higher Secondary Education Board (HSC)

A-Level Equivalent Qualifications in Science

Gujarat, India

Graduated with Distinction

- Achieved top grades in Mathematics, Physics, Chemistry, and Computer Science.
- Focused on logical reasoning, programming fundamentals, and algorithm design.

EXPERIENCE

Full-Stack Developer – AI-Powered Web Application

University of Greenwich

Sep. 2024 – Present

London, UK

- Developed a web application integrating Java Spring Boot backend with a React.js frontend.
- Designed and implemented RESTful APIs to handle multimodal data for real-time processing.
- Implemented AWS-based deployment using EC2, S3, and RDS for scalable cloud hosting.
- Followed Agile methodologies, participating in daily standups, sprint planning, and code reviews.

Software Engineer (Freelance)

Remote

Jan. 2023 – Dec. 2024

Freelance

- Developed RESTful APIs and backend services using Java (Spring Boot) and Python (Flask).
- Optimized SQL queries and NoSQL database interactions for high-performance applications.
- Integrated AWS services (Lambda, RDS, S3) for scalable and cost-efficient deployments.
- Implemented CI/CD pipelines using GitHub Actions for automated testing and deployment.

Web Developer – Rock Climbing Mobile App

University of Greenwich

Oct. 2024 – Dec. 2024

London, UK

- Developed a mobile app using React Native and Firebase for real-time data synchronization.
- Integrated RESTful APIs for weather updates, climb tracking, and user authentication.
- Implemented Agile best practices, collaborating with a team using Jira for task management.

PROJECTS

Portfolio Website | React.js, HTML/CSS, JavaScript

Aug. 2023 – Sep. 2023

- Designed and developed a personal portfolio website to showcase projects and skills.
- Implemented animations and interactive elements to create a modern user experience.
- Optimized performance and deployed using Netlify, achieving a load time under 1 second.

Task Management App | Node.js, Express.js, MongoDB, Bootstrap

May 2023 – Jul. 2023

- Developed a full-stack task management system with user authentication and role-based access control.
- Designed RESTful APIs to handle CRUD operations and integrated them with a MongoDB database.
- Used Bootstrap for a responsive and user-friendly interface, ensuring a seamless experience.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL (PostgreSQL, MySQL), Bash

Backend Development: Java (Spring Boot), Python (Flask), Node.js (Express.js), RESTful APIs, Microservices

Frontend Development: React.js, React Native, Material-UI, Bootstrap

Cloud & DevOps: AWS (Lambda, EC2, RDS, S3), Docker, CI/CD Pipelines (GitHub Actions, Jenkins)

Databases: PostgreSQL, MySQL, MongoDB

Software Testing: JUnit, Mockito, Selenium, Test-Driven Development (TDD)

Agile & Development Tools: Jira, Scrum, Git, IntelliJ IDEA, Postman, Figma
